

Deciphering Market Predictions (Webinar Recording)

What could 2024 hold for individual investors? From stagflation to productivity-fueled growth, the range of possibilities is exceptionally wide. But by understanding the full spectrum of potential economic conditions—and which ones are most likely—investors can feel better prepared to face this year’s investment landscape.

Watch this 45-minute webinar and listen in as the CAPTRUST team explores:

- Market insights and potential scenarios for the year ahead
- Major undercurrents influencing the U.S. and global economies
- What could be next from the Fed
- Guiding principles for individual investors
